

Respiratory Therapist

Sleep Disordered Breathing Program- (CPAP, Bi-Level and Servo Ventilation)

Surrey Office

MedPro Respiratory Care is currently looking for a Respiratory Therapist with Sleep Disordered Breathing (SDB) experience to join our busy Surrey location. This individual will work closely with referring physicians to manage the introduction of CPAP and BiPAP therapy to patients, provide intensive ongoing follow-up and support, monitor and provide written documentation of therapy outcomes to the referring physician.

The Organization

MedPro Respiratory Care has been providing British Columbians with home oxygen and sleep therapies for over 15 years and continued growth based on exceptional service and clinical intervention has afforded us the opportunity to expand our sleep operations in the lower mainland.

MedPro is a great place to work and recognizes the contribution of its team in the success of the organization. We believe that it is the unique skills each individual brings to the team that sets us apart from our competitors. We are a service provider, first and foremost, ensuring our customers sleep therapy needs are met on a daily basis.

The Challenge

Are you a service-oriented individual with strong clinical skills and the ability to multi-task in a busy clinic setting that would like the opportunity to join a like-minded group that is committed to providing quality healthcare services to residents in the Fraser Valley?

The Reward

- ◆ Competitive Compensation Package
- ◆ Comprehensive benefits program including health and dental insurance and 5% employer matched Group Retirement Program.
