Engaged people for sustainable performance

VitalAire Canada is the Canadian home healthcare subsidiary of Air Liquide, the world leader in gases, medical technologies and services for Industry and Healthcare. Through the passion and diversity of its people, Air Liquide leverages energy and environment transition, changes in healthcare and digitization, and delivers greater value to all its stakeholders. Join us for a stimulating experience: you'll find a world of learning and development opportunities where inventiveness is at the heart of what we do, in an open, collaborative and respectful environment.

Here is what you will do

You will be educating and providing quality healthcare services to our clients by initiating CPAP & Oxygen therapy, performing assessments, educating clients in the use and knowledge of equipment, and conducting follow-up service.

Educating and providing quality healthcare services to our clients by initiating CPAP & Oxygen therapy, performing assessments, educating clients in the use and knowledge of equipment, and conducting follow-up service.

- Conducting full respiratory assessments
- Assessing and evaluating patient test results
- Delivering of equipment and supplies
